AURA SEA

CREWING WITH CARE

🧭 About the Company

Founded in April 2022 in Odesa, Ukraine

Aura Sea Crewing is a professional crewing agency established and operated by experienced seafarers.

We specialize in providing qualified and verified Ukrainian crew members for various vessel types, including Container Ships, Bulk Carriers, General Cargo, VLCCs, Tankers, Yachts, and Passenger vessels.

Our operations are built on modern technology, efficiency, and accountability — ensuring shipowners receive reliable and competent personnel, ready to join worldwide.

CREWING WITH CARE

⚙️ Our System

Aura Sea Crewing applies the newest generation of HR technologies and data-driven recruitment algorithms tailored for the maritime industry.

We utilize structured evaluation workflows that include:

- Real-time database management and continuous updates;
- Automated verification of maritime documents and certificates;
- Competency-based interviewing and psychological assessment;
- Candidate scoring system based on performance and readiness.

This ensures every seafarer profile is authentic, current, and job-ready.

AURA SEA

CREWING WITH CARE

💙 Active, Human-Focused, and Evolving

Our crew database includes over 500 verified professionals across all maritime positions.

Each seafarer's profile is personally reviewed, regularly updated, and tracked for certification status and contract availability.

Beyond recruitment, Aura Sea Crewing is the first Ukrainian agency integrating psychological support programs for seafarers and their families. We believe that mental stability and emotional balance are critical for safe and effective work at sea.

That's why our certified psychological partners provide:

- Support and consultations for seafarers' spouses and relatives;
- Stress-resilience sessions for seafarers before and after contracts;
- Continuous mental health awareness integrated into our HR process.

This approach allows us not only to fill vacancies — but to build sustainable, motivated, and mentally healthy maritime teams.

AURA SEA

CREWING WITH CARE

📊 Active and Dynamic Database

Our crew database exceeds 500 verified professionals across all positions and ranks.

Each profile is manually checked, regularly updated, and validated by our recruitment officers.

We maintain direct contact with every candidate, tracking their contracts, availability dates, and certification status.

Over the last three years, Aura Sea Crewing has successfully placed more than 200 Ukrainian seafarers on vessels of different types, building long-term partnerships with trusted operators.

AURA SEA

CREWING WITH CARE

💻 Technology & Innovation

We implement modern HR standards, digital tracking systems, and automated analytics to improve every stage of the crewing process.

Our adaptive digital infrastructure allows us to:

- Locate and verify crew members globally;
- Reduce recruitment time and administrative workload;
- Maintain stable communication between shipowners and crew;
- Guarantee compliance with MLC 2006 and international labor standards.
